

Hour of Code 2020

December 7-13

Activities for
students, families
and educators with
all levels of coding
experience.

Join for free at
acoe.org/hourofcode

EVERYONE can code!

Join us and be part of this global movement!

Celebrate Computer Science Education Week at acoe.org/hourofcode by completing an hour of coding at your own pace.

This all-ages site features over 50 of the best free coding activities for all levels of experience. We're showcasing easy-to-learn apps, games and creative coding platforms designed to introduce any learner to the world of computer programming.

Why participate? Because every student should have access to computer science education that promotes problem-solving skills, logic and creativity.
