

Infant & Family Support Program

Family Collaboration Goals:

1. To provide families with information and resources to better understand the nature of their child's disability and how it affects development.
2. To provide families with knowledge and teach skills that help them support their child's development in everyday activities & address specific issues that are identified by families as especially stressful and challenging.
3. To provide opportunities for parents of kids with special needs to meet and talk with other parents of kids with special needs.
4. To help provide brothers and sisters with accurate and age appropriate information about their sibling's disability.
5. To help families understand their legal rights and the rights of their child regarding services and the systems that are responsible for them.
